REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The prior art does not teach or suggest the recited lead free bump of Sn-Ag with an Ag content that is lower than that of a eutectic composition of SN-Ag.

Takeda et al., U.S. Patent No. 6228322 discloses a lead free solder alloy composition that includes a rare earth element in an Sn-Ag alloy.

Muira et al., U.S. patent Application Publication US2003/0030149 A1, discloses a semiconductor device having solder bumps. The Table shown in Figure 6 includes a variety of solder compositions containing Sn-Ag, but do not disclose a Sn-Ag bump formed by a composition where the Ag content is lower than a eutectic.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Roy K. Potter whose telephone number is 571 272 1842. The examiner can normally be reached on M-F.
